Subject: RE: Sulfolane Issue

Bob,

Thank you for responding quickly to our request and for looking into this serious public health matter. After today, I will no longer be an ACAT employee, but I do have a special interest in this issue because I am originally from North Pole and I have family in the area. Please direct all future correspondence to Pam Miller, the Executive Director of ACAT (Pkmiller@akaction.net).

I hope that you can find a way to clean up the sulfolane spill soon.

Thank you,

Sara

Subject: Sulfolane Issue

Sara,

I will be attending a June 18th meeting in Fairbanks concerning the North Pole refinery sulfolane issue to begin the process in determining if the site falls within our EPA's Removal Program. In the interim, I will be in contact with AK-DEC program managers directly involved with the site to glean as much information as possible concerning the situation.

If you have any questions please contact me.

Regards,

Bob Whittier
